

Emerald School Student Performance Report

Presented By Aurelia Okafor

SUMMARY

Key Performance Indicators

2000

Total Students

7

Core Subjects

567

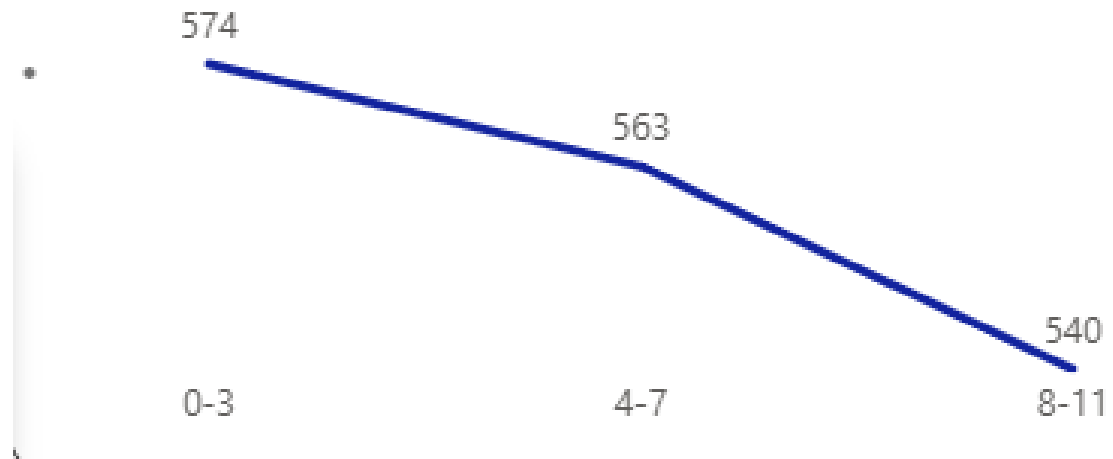

Average Score

18

Avg. Self-Study Hours

ATTENDANCE IMPACT

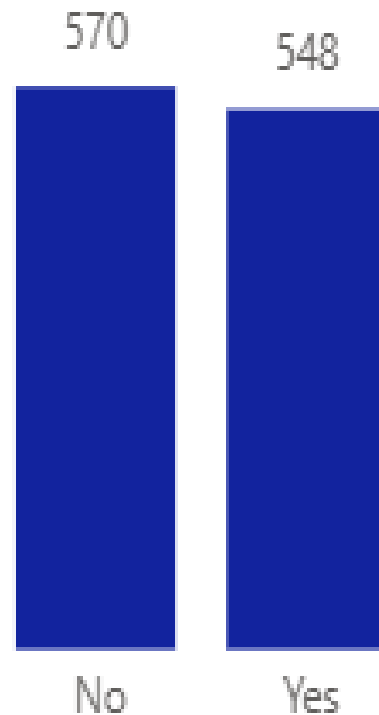

Average Score by Absence Days

While a few absences may not immediately deter performance, a significant drop is observed after 3 days, highlighting the importance of consistent attendance.

Part-Time Jobs and Academic Performance

Average Score by Part Time Job

Students Without Part-Time Jobs

Average Score: 570

These students generally have more time dedicated solely to academics and extracurricular activities.

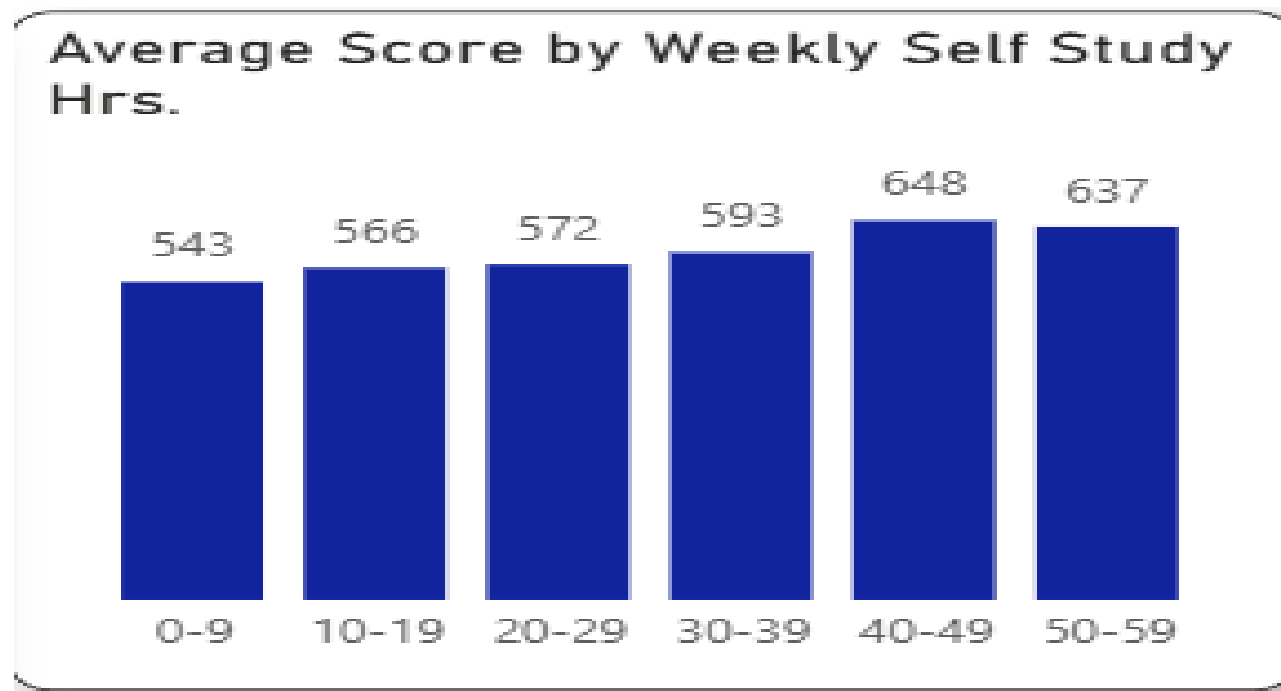

Students With Part-Time Jobs

Average Score: 548

Balancing work and study can present challenges, potentially impacting academic focus and performance.

Students with part-time jobs score notably lower, suggesting a need for support in managing responsibilities.

The Impact of Weekly Self-Study Hours

There is a direct correlation between the number of self-study hours and average scores, with higher scores for those dedicating more time.

- Increased study hours correlate with higher scores.
- A significant jump is observed at 30+ hours.

Recommendations for Enhanced Student Success

- Promote Attendance

Implement early intervention programs for students with frequent absences to maintain consistent learning engagement.

- Support Working Students

Reduce working hours and offer flexible scheduling for work to help students balance part-time jobs with their studies.

- Encourage Self-Study

Develop workshops on effective study techniques to encourage self – study for students.

Create quiet study time in schools to boost dedicated learning hours.

DISCUSSION

Questions & Answers

We welcome your questions and insights as we work together to foster a thriving learning environment at Emerald School.
